### REMARKS/ARGUMENTS

Claims 76-92 are pending in the application. Such claims having been allowed, this amendment is being filed in response to the requirements set forth in the Office Action of November 29, 2004, which closes prosecution on the merits in accordance with Ex Parte Quayle.

In paragraph 1 on page 2 of the Office Action, claims 76-92 are indicated as being allowed over the prior art of record.

In paragraph 1A on page 2 of the Office Action, the abstract is objected to as not being drawn to the invention being claimed. Correction is required. In response, applicant is submitting a new abstract which is drawn to the invention being claimed. Therefore, this requirement has been complied with.

In paragraph 1B on page 2 of the Office Action, the statement is made that the applicant should update the cross reference to related application Serial No. 09/382,499. In response, applicant is replacing the paragraph which cross references the related application with an amended paragraph which sets forth the issue date and the patent number of such application. Consequently, this requirement has been complied with.

In paragraph 1C on page 2 of the Office Action, a new title is required that is clearly indicative of the invention to which the claims are directed. In response, applicant is amending the title so that it is clearly indicative of the invention to which the claims are directed. As so amended, the amended title reads: IMAGE FORMING DEVICE WHICH DETERMINES IF THE NUMBER OF LINES TO BE FORMED AFTER CONVERTING IMAGE DATA EXCEEDS A PREDETERMINED LINE COUNT. Such new title is clearly indicative of the invention to which the claims are directed.
